ORAL SPRAY

Treatment and prevention of oral mucositis.

Mucositis and stomatitis are inflammation of the oral cavity, normally accompanied by erythematous lesions and sometimes by ulcerative lesions that are particularly painful so much so as to make chewing and swallowing difficult.

GeIX[®] ORAL SPRAY has a mechanical action indicated for the management of pain and relief of pain by adhering to the mucosal surface of the mouth, soothing the lesions caused by chemotherapy and/or radiation therapy. It can also be used as a preventive treatment before chemotherapy and/or radiation therapy to protect the oral mucosa. Alcohol free.

DIRECTIONS FOR USE: Take the top off and apply vaporizer. Direct the vaporizer towards the lesion inside the mouth and spray three times. Repeat three times per day. Avoid swallowing any substances, solid or liquid, for at least one hour after each application.

INGREDIENTS: Aqua, Sodium saccharin, PVP, Taurine, Zinc Gluconate, PEG-40 hydrogenated castor oil, Pullulan, Aroma. Do not use product if you have a known allergy to any of the ingredients.

WARNING AND PRECAUTIONS: Do not use if the package is opened or damaged. Keep out of the reach of children. Store below 30°C, away from direct heat.

Store below 30°C
